Shri S.V. Asgaonkar, Secretary, Executive Committee, BMRDA.

Presiding over the first meeting of the Executive Committee after his appointment as Chief Secretary, the Chairman observed that in his opinion BMRDA was not very effective and as such, it was necessary to examine how more teeth could be put in BMRDA. He requested all the members to apply their minds to this issue and also

asked Metropolitan Commissioner to submit his views before the Committee on this matter. He clarified that he was not blaming any person or persons for the existing situation but he felt that time has now come for looking at a problem not only within the confines of procedure but also adopt unorthodox means as may be necessary to fulfil the desired objectives.

Members of the Executive Committee were requested to communicate their views on what they considered to be the major issues, to the Metropolitan Commissioner by 5th May, 1985, and the Metropolitan Commissioner was requested to bring all these issues before the next meeting so that Committee may decide the priorities as also strategies to be adopted for attaining those priorities.

Views were also expressed stating that since BMRDA was supposed to take an overview of development of Bombay Metropolitan Region, the Executive Committee should not only deal with routine matters which in any case they have to under the existing law, but further that after the important issues are identified, as far as possible in every meeting, one or two such issues should be discussed threadbare.

In course of general discussion, thereafter, the following points emerged:-

- (1) In future whenever Central Government or any undertaking of the Central Government desires to submit application under Section 13 of the Bombay Metropolitan Region Development Authority Act, 1974, they should be asked to first obtain N.O.C. from the Department of Environment, Government of India and the application should be received only after such a N.O.C. is produced.
 - (2) In case of applications, under Section 13 of the Act the parties should be asked to explain the proposals to the concerned officer of the BMRDA. This should invariably be done before the applications are presented to the Executive Committee.

- (3) The Metropolitan Commissioner was requested to examine as to whether, with the publication of the Draft Revised Development Plan for Greater Bombay and modification of the existing Development Control Rules for Greater Bombay, it was necessary to continue the Notification under Section 13 of the BMRDA Act, 1974.
- (4) It was complained that applicants, after securing permission from the Executive Committee for a particular development, change the nature of development on site thereby defeating the purpose of permission. It was, therefore, suggested that the officers of the BMRDA and the Bombay Municipal Corporation should jointly verify periodically whether the development conforms the permission granted.
- of appeals by State Government under section 13(4) of the BMRDA Act, 1974, the Legal Adviser should invariably accompany the Metropolitan Commissioner or an officer authorised by him.

The Committee then proceeded with the business before the Meeting.

Item No.1: Applications for permission under Section 13 of the BMRDA Act, 1974.

The applications bearing the following registration numbers were placed on the Table:

- (1) 475/14/3/85 (2) 476/18/3/85
- (1) Application No.475/14/3/85(M/s. Balmer Lawrie & Co. Ltd.)

The Committee considered the application and noted that the proposal was for addition of floor area of 404.25 square metres to the existing building at Survey No.172, Factory Building, 149, Jackeria Bunder Road, in 'F-South' Municipal Ward, thereby increasing the existing area of 6,211.09 square metres to 6,615.34 square metres

and F.S.I. to 0.652. The land under reference have been zoned for I, purposes in sanctioned Development Plan and in the Draft Development Plan it is proposed to be included in I2 Zone. The additional area in respect of which permission was sought for was proposed to be utilised for accommodating - (1) Project Division, (2) Testing Laboratory facilities, (3) Drawing Office, and (4) Accounts and Finance (Part). Activities mentioned at Sr. Nos. (1) and (4) are presently conducted at Company's Office at Ballard Estate. No sufficient justification for shifting them to the new premises was given in the application. The activities (2) and (3) were new activities which would add 27 new jobs. was also noted that the space vacated at Ballard Estate was not likely to be utilised for any other purposes except for office use. Though the Testing Laboratory facility did not create any major office job, the same was governed . by the industrial location policy. land was in Industrial Zone and activities other than Testing Laboratory had no nexus to the main activity and were, therefore, not permissible as per the provisions of Development Control Rules for Greater Bombay. With the publication of Draft Revised Development Plan for Greater Bombay, the F.S.I. in Industrial Zone has been reduced to 0.5 as against 0.652 proposed to be utilised by the Applicant. As per explanation added by BMRDA Notification, No.MC/RDM-1082/2118(A), dated 7th October, 1980 to the Original Notification, dated 10th June, 1977, the Connittee has no powers to grant any permission which may be in excess of or contrary to any provisions of the Development Control Rules for Greater Bombay for the time being in force. application was, therefore, rejected being ultra vires of the Committee's powers and, therefore, not maintainable.

(2) Application No.476/18/3/85 (Mukund Nagar Co-operative Housing Society Ltd.)

The Committee considered the application and noted that the proposal was for construction of a building with floor area of 3,249.94 square metres

and F.S.I. 1.66 at Survey Nos. 181, 521 and 522 (parts) of Dharavi Division, Dharavi Mahim Road, in 'G-North' Municipal Ward, for providing tenements to the existing slum dwellers on the plot. It was also noted that in the past the applicant had submitted an application for similar development and the same was rejected by the Executive Committee on the ground that - (1) the applicant had taken into consideration the area of road set-back which was not leased out by the Bombay Municipal Corporation to the applicant and by excluding the area of road set-back, the F.S.I. proposed to be utilised was 1.97 and not 1.66, and (2) the State Government was expected to take a policy decision in respect of F.S.I. to be allowed in such cases. It was further noted that after the Executive Committee's decision the applicant had preferred an appeal to the State Government, under subsection (4) of section 13 of the BMRDA Act, 1974 and the same was pending consideration with the State Government... In the case of present application, the Society had approached BMRDA, after Government in Housing and Special Assistance Department had granted them an additional F.S.I. upto 1.66 (vide Government letter, No.SCS:284/ (C.R.783)/VII.A, dated 14th February, 1985). Committee had also before it letter addressed to the Metropolitan Commissioner of even number, dated 10th April, 1985, from the Secretary to Government, Housing and Special Assistance Department. The applicant had proposed bigger tenements of 215 square feet carpet area. If the size of the tenements was restricted, it. was possible for the applicant to accommodate all the existing slum dwellers with F.S.I. 1.33 (which is prescribed under the Revised Draft Development Plan Development Control Rules). The Committee, therefore, was of the view that there was no need to permit use of additional F.S.I. granted by Government in this case and, therefore, decided to reject the application.

Accordingly, the Committee passed the following Resolution:

RESOLUTION NO.298:

"Resolved that in exercise of the powers conferred on it by clause (iv) of the sub-section (3) of section 7
