

FOB connecting two important Metro Line's completed in record time

340 Metric Tonnes steel used

Mumbai, 29 November, 2022:

MMRDA is Integrating Mumbai Metro Network. For that new FOB is ready to connect two Metro Line's. This FOB will help the passengers to interchange Mumbai Metro Line-7 to Metro Line-1 and vis-a-vis. The Foot Over Bridge (FOB) connecting Metro Line -7 (Gundavali Station) and Metro Line-1 (Western Express Highway Station).

The total 58 meters long and 4 meter to 8 meters wide superstructure of FOB is completed in record 15 days. The total steel quantity used in this FOB is around 340 Metric Tonnes (MT) including reinforcement and structural steel. MMRDA constructed this FOB by overcoming hurdle like shifting of utility lines. The junction near Gundavali Metro Station is very crowded, so this FOB will provide Mumbaikars hassle free interchangeable connectivity between two metro Line's.

"The infrastructural work on phase- 2 of Metro Line -7 & Metro Line- 2A is Completed. Both the Metro Line's will be in service of Mumbaikars soon after the CMRS inspection", said Shri S.V.R. Srinivas IAS, Hon. Metropolitan Commisioner, MMRDA
